DETAILED ACTION

Response to Amendment

The Amendment filed on 3/23/2005, has been entered and acknowledged by the Examiner.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

In claim 7, line 3, the word "which" has been removed.

Allowable Subject Matter

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or fairly suggest:

- A plasma display panel comprising a succession of low-permittivity regions at the top of the barrier ribs, over an entire width of the barrier ribs, that extend at least on each side of the gap separating the electrodes of each pair, at least starting from a line located 80 microns to the rear of the initiation edges of the electrodes, and which have a thickness greater than 3 microns and not exceeding one fifth of the total height of the said barrier ribs, and a mean dielectric permittivity at least three times smaller than the dielectric permittivity of the barrier ribs measured at their base, in combination with the remaining claimed limitations as called for in

claim 1 (claims 2-10 are allowable for the same reasons since they are dependent on claim 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
